**All program requirements listed above must be submitted no later than August 1st at 5pm in order to register for the program that year. Start early on completing the Certificate of Clearance and Subject Matter Competency requirements as these take the greatest amount of time to complete and are the most likely to be delayed or held up.**

#### **Other Notes**

We are a two semester program that starts in the Fall and finishes in the Spring. We encourage candidates to remain at their placement sites even when Cal Poly Humboldt is not in session. **Please be prepared to be available for the duration of the program.**

#### **Submit the completed application online by the deadline**

Not all of the program requirements listed above must be completed by the time you submit your application. That being said, the more requirements completed early, the better position you will be in. The School of Education Credential Program advising committee will conduct applicant interviews in late March, interviews in April, and admission notices will follow. Subject Matter Departmental Reviews can only take place if all official transcripts have been received by Cal Poly Humboldt.
